

# Number Porting Agreements

---

If you've already got a phone number that you'd like to keep hold of and move to us, we can handle this process for you from start to finish. We have agreements with several other communication providers, allowing us to 'port' your number from them to us without any interruption to your service.

Once your account is all set up, give our team a call, and we'll talk you through the process. We'll ask you for a few details about your account with the other provider and send you over a 'Letter of Authority' that needs to be signed to authorise us to move your number. Once we've received the signed form, it usually takes around seven days to have the number moved over, but we'll keep you fully up to date at all times.

If your current provider doesn't appear on the list below, please let us know, and we'll be able to get the process for adding them started.

## Who can we port numbers from?

- Barritel
  - BT
  - Central Technology
